Office

Coffee Shop

Bedroom

**Practical solution for various applications**

These units can be easily installed on both floor (concrete and raised access) applications and desk/countertop applications.

**Maximum resistance**

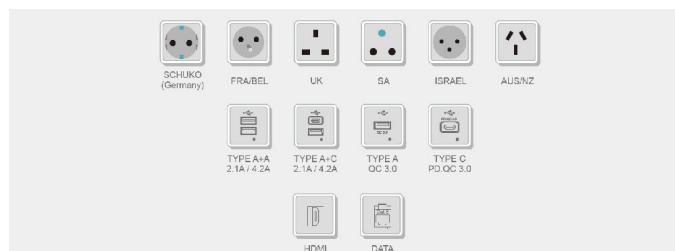

The pop-up cover locking system provides the extent to endure from any pressure to protect the cable when connected.

- Provides safe and convenient access to power & data outlets when required without compromising the look.
- Perfectly complements any contemporary interior and enables the reputation for quality & reliability not to be compromised.

Weatherproof protection

When in closed position, the seal provides a good level of protection against dust particles and water splashes to ensure extended product longevity.
