

Class 3 GI Conduits

- Class 3 GI Conduits , heavy protect insulated electrical Conductors and Cables
- 1.2mm Thickness
- 90° Bending Radius
- Pre-Galvanized Steel construction provides Shielding from magnetic fields.
- Threaded on both ends.
- One end fitted with coupling and other end protected by Plastic End cap.

Class 3

Specification:

Item Code	Trade Size	Outside Diameter		Thickness	Length	Threaded Length		Weight	Packaging
		Min	Max			Min	Max		
MC20MMC3T12	20MM	19.7mm	20mm	1.20±0.05	3.75	13.0mm	15.0mm	2.08 kg	10/100
MC25MMC3T12	25MM	24.6mm	25mm	1.20±0.05	3.75	16.0mm	18.0mm	2.64 kg	10/100
